

## Access Your Desktop, Apps & Data From All Your Devices

Ancero Cloud Workspace is a fully managed, secure, end user computing platform. It acts identical to the desktop you use today. The difference? Your workspace stays in the cloud. Simply login from any connected device to work with your files and applications, for quick and easy access anywhere, at anytime.

*The Cloud Workspace is an innovative solution perfect for businesses looking to transition applications and data to the cloud while supporting remote employees, mobile work, and BYOD. It's an ideal choice for companies who want to simplify IT infrastructure and reduce technology costs.*

### Simplifies IT Management

- ◆ Includes all OS, desktop, and application support and updates
- ◆ Includes all IT infrastructure, storage, and data backup
- ◆ Supports Bring Your Own Device
- ◆ Allows for easy management of your IT network - end users, servers, and applications
- ◆ Easily scales up and down as business needs dictate

### Enhances Data Security & Business Continuity

- ◆ Your applications, files, and desktops reside in a secure cloud environment, not on the device
- ◆ Supports company disaster recovery plans by keeping all data secure, readily available, and compliant
- ◆ Supports Microsoft Office 365 and Azure Active Directory in the Cloud Workspace environment
- ◆ Line of Business Application Hosting; applications are monitored and backed up to ensure continuity
- ◆ Ancero Cloud Workspace services operate out of the Microsoft Azure Cloud
- ◆ Industry leading technology secures the network against web-based threats
- ◆ Anti-virus and patching service provides additional advanced security

Ancero's cloud solutions are powered by the Microsoft Azure Cloud platform and as a certified Microsoft Cloud Solution Provider we ensure you will have a flexible, secure solution to address your unique migration needs.
